Company Name: USEPA Region X

Address: 3322 N. Cook St., Spokane WA 99208

TERMS AND CONDITIONS FOR RECEIPT OF WASTES AT ESII

01. ☒ Normal operating arrival hours: Bulk 7:30 a.m. - 2:00 p.m.
Drums, bags, boxes and special handling 7:30 a.m. - 12:00 noon.
02. ☒ Waste Product Questionnaire (WPQ) number must appear on each manifest or shipping paper required by EPA or DOT.
03. ☐ Atypical loads will be billed on a case-by-case basis for all special charges.
04. ☒ Acceptance ends 11.7.88.
05. ☐ Generator must provide updated analysis _____, 19____ and thereafter.
06. ☒ pH of a 50% slurry of waste in distilled water must be at least 6.0 but less than 11.0 by ESII methods.
07. ☒ Flash point of incoming materials must be 100 °F or greater by ESII methods.
08. ☐ Bulk containers may not contain unauthorized materials or free liquids at time of receipt.
09. ☒ Manifest notification/certification required with each shipment in accordance with 40 CFR Part 268.7.
10. ☐ Bulk WPQs may not be mixed in same shipment unless authorized by ESII in writing.
11. ☐ When authorized to ship multiple bulk wastes in the same container, state percentage of each by WPQ on manifest.
12. ☐ Bulk waste must contain sufficient moisture to control dust emissions during disposal.
13. ☐ Bags must be double-stitched and equipped with integral lift straps; load on flatbed trailer.
14. ☐ Palletized boxes must not exceed 44 inches L,W,H or 1800 pounds; must load flatbed trailer from side; must be constructed of minimum 3/4" plywood with reinforced corners.
15. ☐ Material must be in solid, non-flowable condition at time of disposal and must meet ESII load bearing strength requirements (5 PSI penetrometer, SOILTEST® Model CL-700 & 701 adapter).
16. ☐ Miscellaneous debris and odd-sized waste must be cut into pieces not exceeding 3 feet in any dimension.
17. ☐ ESII requires waste to meet standards for odor, temperature and free liquid stability; contact ESII for details.
18. ☐ Odoriferous waste shipped to ESII for bulk disposal may not be acceptable.
19. ☐ Cyanide or Sulfide may not exceed 200 mg/Kg and/or ESII permit limits as determined by ESII free cyanide/Sulfide test.
20. ☒ Concentration of PCB may not exceed 49 mg/Kg.
21. ☐ Oxidizer content may not exceed 50 percent by weight. Drums must be isolated with a layer of clay (above, below and sides).
22. ☒ Generator must schedule delivery of these containers and obtain an ESII acceptance number.
23. ☒ WPQ number must be stenciled on top and side of each drum or container.
24. ☒ Drums may not contain free liquids or void space, they must be 90% full as received at the facility; metal drums only, 800 pounds or less.
25. ☒ Containerized material must be in solid, non-flowable condition at time of disposal.
26. ☐ Dump trucks, end dumps, roll-on/roll-off containers and other bulk containers must be fully lined with minimum 6 mil visqueen.
27. ☐ Generator must certify waste does not contain solvents meeting the F001-F005 listing description in 40 CFR 261.31.

WPQ									

28. ___ Excessive heat generation in contact with water may cause this waste to be unacceptable for disposal at ESII.
29. ___ Caustic content of waste may not exceed 50 percent by weight (as NaOH) as determined by titrimetric methods.
30. ___ Excessive Gas generation in contact with water may cause this waste to be unacceptable for disposal at ESII.
31. ___ Asbestos must be double bagged, wetted and labeled per the requirements of 40 CFR 61, Subpart B.
32. ___ Contractor must contact ESII for authorization to ship asbestos from new sources under this WPQ. Source of asbestos waste must be indicated on the shipping paper.
33. ___ The following conditions for acceptance are applicable to custom-packed labpacks:
- 33.1. ___ Drums must meet requirements for labpacks in 40 CFR 265.316.
- 33.2. ___ A completed packing list with manifest document number must accompany waste shipment.
- 33.3. ___ Liquid volume within an individual drum may not exceed 15 gallons per 55-gallon drum and 20 gallons per 85-gallon drum.
34. ___ The following conditions for acceptance are applicable to waste shipped per the ESII generic labpack program:
- 34.1. ___ Drums must meet requirements for labpacks in 40 CFR 265.316.
- 34.2. ___ A completed packing list with manifest document number must accompany waste shipment.
- 34.3. ___ Liquid volume within an individual drum may not exceed 15 gallons per 55-gallon drum and 20 gallons per 85-gallon drum.
- 34.4. ___ All chemicals shipped for disposal must be on latest authorized version of ESII master list of chemicals.
- 34.5. ___ Version of ESII master list of chemicals authorized for immediate use is Version 2.1.
- 34.6. ___ The use of an updated version of ESII master list of chemicals will be authorized in writing.
- 34.7. ___ Generator must submit proposed packing list for ESII staff review prior to shipment.
- 34.8. ___ ESII will assign WPQ number to each drum and provide written authorization to schedule shipment.
35. ☒ All drivers delivering material to ESII must be in possession of Personal Safety Equipment to include coveralls, boots/boot covers, gloves, hardhats, safety glasses and respirators as needed. If ESII must provide any Personal Safety it will be billed under this Disposal Order/Contract at a standard rate.

ADDENDUM #3 TO DISPOSAL ORDER

Disposal Order Number: 8736
Date: 1-5-88

TERMINATION FOR CONVENIENCE

Either party hereto shall have the right to terminate this Agreement for convenience without penalty at any time, upon giving sixty (60) days prior written notice of such termination to the other party.

TERM OF AGREEMENT

Unless sooner terminated, this Agreement shall be effective for the period commencing on the date of execution hereof and ending on 11-16-88, provided however, that if the services hereunder cannot commence on the date of execution hereof, DISPOSER shall give CUSTOMER thirty (30) days advance written notice of the date the services hereunder shall commence. Expiration or termination of this Agreement, for any cause, shall not relieve CUSTOMER of liability for payment of sums due or to become due DISPOSER for services performed hereunder prior to the effective date of expiration or termination. Pricing is subject to change with thirty (30) days written notice. Whenever the name "Generator" appears on the front and reverse side of the Disposal Order and on any attachments, it shall be deemed to be replaced with the name "Broker". Moisture content of the waste must be stabilized in accordance with the RCRA amendment banning free liquids in landfills prior to shipment.
